Casual & Workwear

ED. 34

Il sogno spicca il volo.

Nel 1958, conobbi questo fantastico bambino che sognava di diventare un pilota, si divertiva a sognare, costruendo aeromodelli e le loro eliche. Incominciò a fare il pilota di piccoli aerei da turismo perché amava il fascino unico dell'aviazione e viveva per quel **senso di libertà** che il volo è in grado di dare e con **il sogno di scoprire ed esplorare il mondo**. Era nato pilota, e dilettandosi con aerei acrobatici si fece conoscere nel mondo dell'aviazione.

In 1958 I met this fantastic child who dreamed of becoming a pilot, he loved to dream whilst building airplane models and their propellers.
He started to pilot light aircraft because he loved the unique charm of aviation and he lived for the **sense of freedom** that flying gives you and with it **the dream of discovering and exploring the world**.
He was a born pilot, and by dabbling in acrobatics, he became well-known in the world of aviation.

The dream takes flight.

L’idea prende forma.

Un giorno ci fu una terribile emergenza e fu contattato per salvare una piccola comunità montana dalle fiamme. Il compito era estremo e pericoloso, ma il suo senso di libertà lo portò ad accettare. Sul filo delle fiamme domò l’incendio donando di nuovo libertà a quella gente.
Ora gli anni sono passati, i lavori estremi sono una intensa memoria, ma il suo fascino, il suo spirito libero e il suo sogno continuano a vivere dentro di lui, che guida con passione i più grossi aerei di linea volando nei cieli alla scoperta del mondo.
È da qui che il marchio Payper con il suo inconfondibile logo ad elica si riempie del suo sogno fatto di fascino e libertà.

The idea takes shape.

One day there was a terrible emergency, and he was contacted to save a small mountain community from a fire. The task was extremely dangerous, but his sense of freedom led him to accept. Flying on the edge of the flames he put out the fire, freeing the people once again.
Years have passed, these extreme endeavours are only vivid memories, but his charm, his free spirit and his dream still live on inside this man who passionately pilots the biggest airliners, crossing the skies to discover the world.
This is why the Payper brand with its unmistakable propeller logo is filled with his dream of charm and freedom.

Valori.

IMPEGNO E CONDIVISIONE, PER UN'INNOVAZIONE CONTINUA.

Talento, impegno, passione: questo è **fare**. Sensibilità, rispetto, condivisione: questo è **essere**. Idee, progetti, sogni: questo è **volare**. Questi sono i principi distintivi che ci guidano ogni giorno nello **sviluppo di indumenti protettivi che si prendano cura delle persone e del pianeta**. Valorizziamo e supportiamo le professionalità interne, sempre pronte a trovare soluzioni innovative, e puntiamo sul lavoro di squadra, collaborando sinergicamente con i partner esterni, affinché condividano il nostro **approccio di impresa consapevole e responsabile**.

Values.

COMMITMENT AND SHARING, FOR CONTINUOUS INNOVATION.

Talent, commitment, passion: this is **doing**. Sensitivity, respect, sharing: this is **being**. Ideas, projects, dreams: this is **flying**. These are the distinctive principles that guide us every day in **developing protective clothing that takes care of people and the planet**. We value and support internal professional skills, always ready to find innovative solutions, and we focus on teamwork, collaborating synergistically with external partners, so that they share our **approach as a conscious and responsible business**.

Ricerca & design.

LA QUALITÀ SI FA STILE.

Creatività, ricerca e qualità sono le componenti imprescindibili del nostro processo produttivo, necessarie per rendere i **capi sempre più funzionali, confortevoli, innovativi e ricchi di fascino**. Dall'**analisi meticolosa dei materiali**, alla **progettazione stilistica, alla cura della confezione**, tutto è controllato nel minimo dettaglio, a **garanzia di standard qualitativi elevati e garantiti nel tempo**. La sinergia tra il reparto creativo ed il laboratorio tecnico interno consente di progettare **performanti dispositivi di protezione individuale di I, II e III Categoria, arricchiti da soluzioni dal design innovativo ed esclusivo**. La virtuosa collaborazione con i partner produttori, selezionati nel rispetto dei parametri internazionali di sicurezza e responsabilità sociale, completa la nostra visione di **abbinare stile e qualità ad una concreta azione sostenibile, per migliorare il presente e il futuro di tutti**.

PY3R

Research & design.

QUALITY BECOMES STYLE.

Creativity, research and quality are the essential components of our production process, necessary to make **garments increasingly functional, comfortable, innovative and full of charm**. From **the meticulous analysis of the materials** to the **stylistic design**, to the **care of the packaging**, everything is controlled down to the smallest detail, **to ensure high quality standards over time**.

The synergy between the creative department and the internal technical laboratory allows us to design **high-performance Category I, II and III personal protective equipment, enriched by solutions with an innovative and exclusive design**. The virtuous collaboration with the manufacturing partners, selected in compliance with international safety and social responsibility parameters, completes our vision of **combining style and quality with tangible sustainable action, to improve everybody's present and future**.

Sostenibilità.

LO SVILUPPO RESPONSABILE.

Fare con passione, innovazione, ma soprattutto "responsabilmente". Mettere al centro dei processi la qualità della vita, producendo capi che puntino a far sentire sicure e a proprio agio le persone nella vita professionale e nel tempo libero è la nostra missione quotidiana. Per questo, **i temi della Sostenibilità e della Responsabilità Sociale d'Impresa sono diventati tratti salienti della governance aziendale, intraprendendo un fruttuoso percorso di certificazioni internazionali e di "best practice" orientate allo sviluppo qualitativo, sostenibile, etico**. Tutto questo si traduce nella capacità di integrare le proprie attività di business con il rispetto e la tutela degli interessi delle comunità con cui Payper si relaziona, ma anche con la salvaguardia delle risorse ambientali e la loro conservazione per le generazioni future.

L'obiettivo aziendale, nel medio termine, è **il raggiungimento del 100% della produzione di capi eticamente certificati**. Per questo, l'azienda ha aderito al programma **Better Cotton, investendo sulla produzione di articoli in cotone sostenibile**, con un'attenzione particolare alla salvaguardia delle comunità agricole e al controllo delle pratiche utilizzate. Inoltre, nell'ottica di un miglioramento continuo del processo produttivo, si prediligono materie prime riciclate e riciclabili, per **dare un contributo concreto all'ambiente e alla società**.

Sustainability.

RESPONSIBLE DEVELOPMENT.

Do things with passion, innovation, but above all "responsibly". Putting quality of life at the centre of processes, producing garments that aim to make people feel safe and at ease in their professional lives and free time is our daily mission. For this reason, **the themes of Sustainability and Corporate Social Responsibility have become salient features of our corporate governance, embarking on a fruitful path of international certifications and "best practices" aimed at qualitative, sustainable, and ethical development**. All this translates into the ability to integrate our business activities with respect and protection for the interests of the communities with which Payper relates, but also with the protection of environmental resources, preserving these for future generations.

The company's objective, in the medium term, is **to achieve 100% production of ethically certified garments**. For this reason, the company has joined the **Better Cotton** programme, **investing in the production of sustainable cotton items**, paying particular attention to protecting the agricultural communities and to controlling the practices used. Furthermore, with a view to continuously improving the production process, recycled and recyclable raw materials are preferred, **to make a tangible contribution to the environment and to society**.

INDEX

Soffice al tatto e irresistibilmente morbida, questa felpa si afferma come il must-have indiscusso dello stile streetwear. La linearità delle forme la rende un capo trasversale, adatto a un pubblico diversificato. Caratterizzata da una struttura solida, compatta e resistente, perfetta per chi desidera un capo dall'eleganza informale.
Tessuto: 70% cotone + 30% poliestere, garzata.

Fluffy to the touch and irresistibly soft, this sweatshirt is the undisputed must-have of streetwear style. The linearity of the shapes makes it a transversal garment, suitable for a diversified target. Characterised by a solid, compact, and resistant structure, it is perfect for those who want a garment with informal elegance.
Fabric: 70% cotton + 30% polyester, brushed fleece.

Le giacche tecniche tuttofare.

ELASTICHE, ASCIUTTE, VERSATILI.

The all-around technical jackets.

ELASTIC, DRY, VERSATILE.

Confortevoli e pratiche, sono giacche pensate per muoversi in libertà e proteggersi in caso di vento e pioggia leggera.

SOFT-SHELL

Progettate con materiali tecnici, solitamente a 3 strati, mantengono il corpo caldo e asciutto. Nate per lo sport outdoor, sono capi indispensabili per la vita di tutti i giorni.

Comfortable and practical, they are jackets designed for moving freely and for protecting you in case of wind and light rain.

SOFT-SHELLS

Designed with technical materials, usually 3 layers, they keep the body warm and dry. Created for outdoor sports, they are essential garments for everyday life.

Disponibile la versione da bambino a pag. 162
Child's version available on page 162

Un design essenziale, caratterizzato da linee morbide e pulite, impreziosisce un capo dalle ottime proprietà antivento, impermeabili e traspiranti. La combinazione di questi tre strati fornisce calore al corpo, mantenendolo asciutto. Disponibile nelle versioni uomo, donna e bambino, per soddisfare esigenze diverse.
Tessuto: 100% poliestere, soft-shell mechanical stretch.

An essential design, characterised by soft and clean lines, embellishes a garment with excellent windproof, waterproof and breathable properties. The combination of these three layers provides warmth to the body, keeping it dry. Available in men's, women's and children's versions, to meet different needs.
Fabric: 100% polyester, soft-shell mechanical stretch.

Stile riconoscibile e design funzionale contraddistinguono questo giubbotto imbottito, con inserti retroriflettenti, dotato di spaziose tasche, per custodire gli oggetti durante le attività quotidiane. Estremamente pratico, grazie alla possibilità di rimuovere le maniche, è noto anche per le proprietà impermeabili e antivento.
Tessuto: 100% poliestere, pongee ripstop 240T.

A recognisable style and a functional design distinguish this padded jacket with retroreflective inserts, equipped with large pockets to store items during daily activities. Extremely practical, thanks to the possibility of removing the sleeves, it is also known for its waterproof and windproof properties.
Fabric: 100% polyester, 240T ripstop pongee.

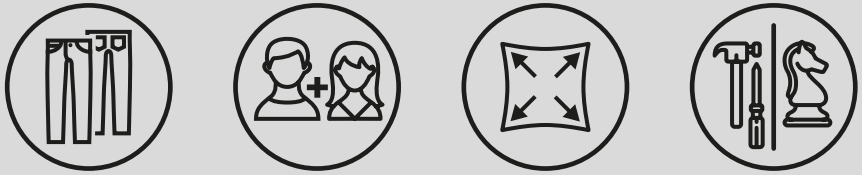
I Jeans.

AUTENTICI E INTRAMONTABILI.

Jeans.

AUTHENTIC AND TIMELESS.



Dal mondo del lavoro al tempo libero, sono pantaloni che si evolvono con le nuove esigenze ma che non passano mai di moda.

From the world of work to leisure time, these are trousers that evolve with new needs but never go out of fashion.

DENIM

Capi resistenti che si adattano a chi li indossa e non temono l'usura. Sobri o ricchi di tasche e accessori, i pantaloni in denim sono la soluzione per ogni outfit.

Durable garments that adapt to the wearer and do not fear wear and tear. Sober or full of pockets and accessories, denim trousers are the solution for every outfit.

Il pantalone che non si deforma, realizzato con una combinazione di fibre di ultima generazione, è il connubio perfetto tra “easy wear” e “easy care”, per un capo dallo stile riconoscibile. Stabilità dimensionale, elevata resistenza allo strappo e ingualcibilità rendono questo modello idoneo per attività professionali soggette ad alto rischio di usura.
Tessuto: 50% poliestere + 30% cotone + 20% elastomultiestere, twill stretch.

These non-deformable trousers, made with a combination of latest generation fibres, are the perfect combination of “easy wear” and “easy care”, for a garment with a recognisable style. Dimensional stability, high tear resistance and crease resistance make this model suitable for professional activities subject to high risk of wear.
Fabric: 50% polyester + 30% cotton + 20% elastomultiester, stretch twill.

FLAT

Fluorescenti e retroriflettenti.

UNA COLLEZIONE DA COMBINARE.

Fluorescent and retroreflective.

A COLLECTION TO MATCH.

ll materiale fluo agevola l'identificazione della persona, quello retroriflettente la rende visibile da lontano, se colpito da fonte luminosa.

ALTA VISIBILITÀ

Le classi di protezione si basano sulle aree minime dei 2 materiali. La classe 3, la più alta, la si può ottenere anche combinando top e pantaloni.

The fluorescent material facilitates identification, the retroreflective one makes people visible from afar, if hit by a light source.

HIGH VISIBILITY

The protection classes are based on the minimum areas of the 2 materials. Class 3, the highest, can also be obtained by combining tops and trousers.

Antipioggia.

IN SET O DA ABBINARE.

Rainproof.

AS A SET OR TO BE MATCHED.

Gli indumenti resistenti all'acqua offrono diversi livelli di protezione in base ai materiali utilizzati e alle tecniche di confezione.

RESISTENTE ALL'ACQUA

I materiali fluo aggiungono alta visibilità, le spalmature facilitano lo scivolamento delle gocce d'acqua, le cuciture termosaldate assicurano impermeabilità.

Water-resistant clothing offers different levels of protection based on the materials used and the manufacturing techniques.

WATER RESISTANT

The fluorescent materials add high visibility, the coatings make water drops slide more easily, the heat-taped seams ensure waterproofness.

Guida alle taglie.

Indossare la taglia corretta di un indumento significa sentirsi a proprio agio in ogni contesto. Per identificarla, consigliamo di **prendere le proprie misure a diretto contatto con il corpo e successivamente di consultare le tabelle seguenti**, all'interno delle quali sono riportate anche le conversioni tra le diverse scale taglia.
La tabella TOP va consultata per gli articoli che vestono la parte superiore del corpo, ad eccezione delle camicie sartoriali a cui è dedicato un prospetto dedicato. **La tabella PANTALONI racchiude**, invece, **le informazioni relative a pantaloni, jeans e bermuda sviluppati in centimetri**. Per quelli sviluppati in pollici va esaminata la specifica tabella. **Gli articoli per BAMBINI**, infine, **dispongono di un'apposita tabella**, nella quale è indicata un'età di riferimento.
In caso di dubbio tra due taglie, si consiglia di scegliere quella leggermente più ampia, per garantire una maggiore libertà di movimento. **È bene comunque provare l'articolo desiderato prima di procedere con l'acquisto e la personalizzazione**.
Le vestibilità possono, infatti, variare a seconda del modello, del tessuto o del trattamento eseguito.

Size guide.

Wearing the correct size of a garment means feeling comfortable in any situation. To identify it, we recommend **taking your measurements in direct contact with the body and then consulting the following tables**, which also show the conversions between the different size scales.
The TOP table should be consulted for items that dress the upper part of the body, with the exception of tailored shirts for which there is a dedicated table. **The TROUSERS table**, on the other hand, **contains information on trousers, jeans and Bermuda shorts given in centimetres**. For those in inches, the specific table must be referred to. Finally, **CHILDREN'S items have a special table**, which details the age of reference.
If in doubt between two sizes, we recommend choosing the slightly larger one, to ensure greater freedom of movement. However, **it is a good idea to try on the desired item before proceeding with the purchase and customisation**. In fact, the fit can vary depending on the model, the fabric or the treatment carried out.

KID

I colori Payper.

GLOSSARIO IDENTIFICATIVO DEI CODICI COLORE.

Utile strumento per comprendere rapidamente la corrispondenza delle tonalità degli articoli a catalogo.
La chiave risiede nei primi due numeri del codice colore, che identificano la famiglia di appartenenza.
Un esempio: se il codice a catalogo è **03**006, lo **03** iniziale indica che si tratta di una variante di rosso.

Payper colours.

COLOUR CODE IDENTIFICATION GLOSSARY.

A useful tool to quickly understand how to match the shades of the items in the catalogue. The key lies in the first two numbers of the colour code, which identify the family they belong to. An example: if the catalogue code is **03**006, the initial **03** indicates that it is a shade of red.

Simboli.

Ogni articolo presente a catalogo è accompagnato da simboli grafici che offrono una visione d'insieme delle **caratteristiche stilistiche e delle proprietà tecniche del capo.** Affinché queste abbiano maggiore durabilità, conservando intatte le performance, **è opportuno procedere al lavaggio, all'asciugatura e alla stiratura, dopo aver visionato i simboli di manutenzione riportati sull'etichetta interna** (care label).
Per facilitare la comprensione di tutti i simboli, di seguito vengono riportate le legende esplicative.

Symbols.

Each item in the catalogue is accompanied by graphic symbols that offer an overview of the **stylistic features and the technical properties of the garment.** In order for these to have greater durability, keeping their performance intact, **we recommend washing, drying and ironing after having viewed the maintenance symbols shown on the internal label** (care label). To make it easier to understand all the symbols, the explanatory legends are shown below.

GENERE

Man: identifica un articolo dal design maschile.

Lady: identifica un articolo dal design femminile.

Kids: identifica un articolo per bambini e ragazzi fino ai 14 anni.

GENDER

Man: identifies an item with a male design.

Lady: identifies an item with a female design.

Kids: identifies an article for children and teenagers up to 14 years old.

UNISEX

Unisex: identifica un articolo dal design idoneo sia per uomo che per donna.

Unisex: identifies an item with a design suitable for both men and women.

MATCH

Match Man + Lady: identifica la disponibilità del prodotto in abbinato uomo e donna.

Match Man + Lady: identifies the availability of the product as matching for men and women.

MATCH

Match Man + Kids: identifica la disponibilità del prodotto in abbinato uomo e bambino.

Match Man + Kids: identifies the availability of the product as matching for men and children.

MATCH

Match Man + Lady + Kids: identifica la disponibilità del prodotto in abbinato uomo, donna e bambino.

Match Man + Lady + Kids: identifies the availability of the product as matching for men, women, and children.

ABBIGLIAMENTO

Peso: per ogni articolo è specificato il peso in grammi per metro quadro del tessuto principale.

Big Size: identifica la disponibilità di almeno una taglia superiore alla XXL.

Regular Fit: identifica un prodotto con vestibilità regolare Payper. La tabella taglie è sviluppata considerando uno scarto d'abbondanza che offra la giusta libertà di movimento e che conferisca ai capi praticità e comfort di utilizzo.

Contemporary Fit: identifica un prodotto con vestibilità contemporanea, ovvero più modellata della Regular.

Slim Fit: identifica un prodotto con vestibilità più aderente della Regular.

Comfort Fit: identifica un prodotto con vestibilità più ampia della Regular.

Stretch: identifica un materiale almeno in parte elasticizzato che rende il prodotto più flessibile e confortevole.

Flexibility: identifica un materiale non elasticizzato ma comunque flessibile e confortevole.

Water Repellent: identifica un materiale a cui è stato fatto un trattamento di repellenza all'acqua; tale caratteristica non garantisce l'impermeabilità totale del prodotto e può non essere permanente nel lungo periodo.

CLOTHING

Weight: for each article the weight in grams per square metre of the main fabric is specified.

Big Size: it identifies the availability of at least one size bigger than XXL.

Regular Fit: it identifies a product with a Payper regular fit. The size chart is developed taking into consideration a leeway which offers the right freedom of movement and which provides practicality and comfort of use to the garments.

Contemporary Fit: it identifies a product with a contemporary fit, i.e. more shaped than the Regular fit.

Slim Fit: it identifies a product with a tighter fit than the Regular fit.

Comfort Fit: it identifies a product with a wider fit than Regular.

Stretch: it identifies a material which is at least partly elasticised making the product more flexible and comfortable.

Flexibility: it identifies a non-elastic material, but which is in any case flexible and comfortable.

Water Repellent: it identifies a material that has been treated with a water repellent; this feature does not guarantee that the product is totally water-repellent and it may not be permanent in the long term.

Waterproof Fabric: identifica l'impermeabilità del materiale; tenere in considerazione che ogni materiale ha un suo livello di resistenza alla permeabilità dell'acqua e che il capo è finito con cuciture, cerniere, bottoni che possono influire sull'impermeabilità del capo.

Breathable: identifica la traspirabilità del materiale; tale caratteristica del tessuto permette che l'umidità del corpo umano venga allontanata più facilmente diminuendo la condensazione del sudore, aumentando il comfort e l'isolamento termico.

Windproof: identifica un materiale antivento; la consistenza e la trama del tessuto non permettono il passaggio dell'aria.

2 Layers: identifica un prodotto in tessuto accoppiato a 2 strati, uno esterno tecnico e uno interno isolante.

2 Layers Padded: identifica un prodotto in tessuto accoppiato a 2 strati, uno tecnico + una membrana, con l'aggiunta dell'imbottitura interna.

3 Layers: identifica un prodotto in tessuto accoppiato a 3 strati, uno esterno tecnico + una membrana intermedia + uno interno isolante.

3 Layers Padded: identifica un prodotto in tessuto accoppiato a 3 strati, con l'aggiunta dell'imbottitura interna.

Insulated 1: identifica un prodotto con un sufficiente isolamento termico.

Insulated 2: identifica un prodotto con un discreto isolamento termico.

Insulated 3: identifica un prodotto con un buon isolamento termico.

Waterproof Fabric: it identifies a material which is waterproof; bear in mind that each material has its own level of resistance to water permeability and that the garment is finished with seams, zips, buttons which can affect the waterproofness of the garment.

Breathable: it identifies the breathability of the material; this feature of the fabric allows the human body's humidity to be removed more easily, reducing sweat condensation, increasing comfort and thermal insulation.

Windproof: it identifies a windproof material; the compactness and texture of the fabric do not allow air to pass.

2 Layers: identifies a product made of a 2-layer bonded fabric, one technical outer layer and one insulating inner layer.

2 Layers Padded: identifies a product made of a 2-layer bonded fabric, one technical layer + one membrane, with the addition of internal padding.

3 Layers: identifies a product made of a 3-layer bonded fabric, one technical outer layer + one intermediate membrane + one insulating inner layer.

3 Layers Padded: identifies a product made of a 3-layer bonded fabric, with the addition of internal padding.

Insulated 1: it identifies a product with sufficient thermal insulation.

Insulated 2: it identifies a product with moderate thermal insulation.

Insulated 3: it identifies a product with good thermal insulation.

UV Protection: identifica la capacità del tessuto di assorbire le radiazioni UV, con un valore UPF (Ultraviolet Protection Factors).

UV Protection: identifies the fabric's ability to absorb UV radiation, with a UPF (Ultraviolet Protection Factors) value.

Easy Care: identifica un prodotto di facile manutenzione che non necessita di trattamenti speciali quando viene lavato.

Easy Care: it identifies an easy maintenance product that does not require special treatments when washed.

Easy Iron: identifica un prodotto di facile stiro grazie a trattamenti eseguiti sul materiale; tale caratteristica non è comunque permanente.

Easy Iron: it identifies a product which is easy to iron thanks to treatments carried out on the material; however, this feature is not permanent.

Next G: identifica capi realizzati con tessuti contenenti "fibre di nuova generazione".

Next G: it identifies garments made with fabrics containing "new generation fibres".

Sartorial Slyle: identifica un prodotto realizzato con dettagli e rifiniture sartoriali.

Sartorial Slyle: identifies a product made with tailored details and finishes.

Three-Needle Stitching: identifica impunture a 3 aghi presenti sul prodotto che garantiscono maggior resistenza e durabilità.

Three-Needle Stitching: it identifies 3-needle stitching on the product which provides greater strength and durability.

Easy Zipper: identifica un prodotto che ha una cerniera intera a doppio cursore con chiusura facilitata.

Easy Zipper: it identifies a product with an easy fastening full double-pull zip.

No Label: identifica prodotti senza etichetta Payper; sono prodotti idonei ad una maggiore personalizzazione da parte del cliente.

No Label: it identifies products without a Payper label; they are products suitable for a greater customisation by the customer.

Life-saving: identifica la presenza dell'originale elemento retroriflettente chiuso con zip, posizionato sul retro dei giubbotti.

Life-saving: identifies the presence of the original retroreflective element closed with a zip, placed on the back of the jackets.

Segmented Tape: identifica la presenza di bande retroriflettenti segmentate, che garantiscono maggiore liberta di movimento.

Segmented Tape: identifies the presence of segmented retroreflective stripes, which ensure greater freedom of movement.

2in1: identifica un prodotto versatile che può essere indossato in 2 modi diversi, combinando o separando alcune parti.

2in1: identifies a versatile product that can be worn in two different ways, combining or separating some parts.

4in1: identifica un prodotto versatile che può essere indossato in 4 modi diversi, combinando o separando alcune parti.

4in1: identifies a versatile product that can be worn in 4 different ways, combining or separating some parts.

ABBIGLIAMENTO TERMICO

THERMAL CLOTHING

Light: identifica un indumento leggero (160 g), ideale per temperature da −5 °C a +10 °C.

Light: it identifies a lightweight garment (160 g), perfect for temperatures from −5 °C to +10 °C.

Welter: identifica un indumento intermedio (240 g), ideale per temperature da −20 °C a +5 °C.

Welter: it identifies an intermediate garment (240 g), perfect for temperatures from −20 °C to +5 °C.

Cruiser: identifica un indumento pesante (280 g), ideale per temperature da −30 °C a 0 °C.

Cruiser: it identifies a heavy garment (280 g), perfect for temperatures from −30 °C to 0 °C.

Quick Drying: identifica un prodotto in tessuto tecnico che agevola l'evaporazione del sudore e l'asciugatura del capo.

Quick Drying: identifies a product made of technical fabric that facilitates sweat evaporating and the garment drying.

Thermoregulation: identifica un prodotto in tessuto tecnico, che assicura un microclima confortevole al corpo durante l'attività sportiva.

Thermoregulation: identifies a product made of technical fabric that ensures a comfortable microclimate for the body during sports activities.

Soft Touch: identifica un prodotto in un tessuto molto morbido e confortevole sulla pelle.

Soft Touch: identifies a product made of a fabric that is very soft and comfortable against the skin.

Heat Maintenance: identifica un prodotto in un tessuto che garantisce un calore di lunga durata a contatto con la pelle.

Heat Maintenance: identifies a product made of a fabric that ensures long-lasting warmth in contact with the skin.

Lock System designed by Payper

Si tratta di un **“modello di utilità” brevettato, applicato alle tasche di alcuni indumenti da lavoro.** È un **innovativo design che prevede la patta di chiusura leggermente più stretta della tasca,** in modo che sia bloccabile sia esternamente che internamente alla tasca stessa tramite puntuali mezzi di unione.
Il bloccaggio interno della patta ha una duplice funzionalità. Da un lato, consente di mantenere sempre la tasca aperta per agevolare l’entrata della mano senza intralci; dall’altro, evita la fuoriuscita di oggetti se riposti al di sotto della pattina.

This is a **patented “utility model”, applied to the pockets of some work clothes.** It is an **innovative design which provides a closing flap that is slightly narrower than the pocket,** so that it can be locked both externally and internally to the pocket itself by specific fastening means. **The internal locking of the flap has a dual function.** On the one hand, it allows you to always keep the pocket open to facilitate the entry of the hand without hindrance; on the other, it prevents objects from escaping if stored underneath the flap.

Tricolor Zipper

Identifica un articolo dotato dell’**identitaria zip tricolore, registrata come marchio presso EUIPO** (Ufficio dell’Unione europea per la proprietà intellettuale). Il diritto esclusivo, per i prodotti specificati nella registrazione, vieta ad altri l’utilizzo. Eventuali casi di uso senza permesso, inclusa la contraffazione, possono essere perseguiti legalmente.

Identifies an item featuring the **distinctive tricolour zip, registered as a trademark with the EUIPO** (European Union Intellectual Property Office). The exclusive right, for the products specified in the registration, prohibits others from using it. Any unauthorised use, including counterfeiting, may be subject to legal action.

Modello comunitario registrato

Identifica un prodotto il quale disegno o modello è stato registrato presso EUIPO, Ufficio dell’Unione Europea per la Proprietà Intellettuale.
Il disegno o modello comunitario registrato (DCR) è un diritto esclusivo conferito per «l’aspetto di un prodotto o di una sua parte, quale risulta in particolare dalle caratteristiche delle linee, dei contorni, dei colori, della forma, della struttura superficiale e/o dei materiali del prodotto stesso e/o del suo ornamento».
Il diritto esclusivo vieta in maniera assoluta l’utilizzo del design, da parte di altri produttori, in tutti gli Stati dell’Unione Europea.

Registered community model

Identifies a product whose design or model has been registered with EUIPO, the European Union Intellectual Property Office.
The registered Community design (RCD) is an exclusive right conferred for “the design of a product or part thereof, resulting in particular from the characteristics of the lines, outlines, colours, shapes, surface structure, materials and/or embellishments”. The exclusive right totally prohibits the use of the design by other manufacturers in all States of the European Union.

Targhette aggiuntive.

FAMIGLIE STILISTICHE

Nel catalogo, alla maggior parte degli articoli che vestono la parte superiore del corpo (TOP) è abbinata una “parola chiave” che indica la famiglia stilistica di appartenenza, intesa come insieme di prodotti che condividono il tessuto principale oppure la stessa tipologia di confezione o la stessa fascia prezzi.

MUST identifica i prodotti di punta, quelli con maggior contenuti, all’interno di ogni classe merceologica.

CORE identifica i prodotti centrali, quelli che rappresentano il cuore della collezione, solitamente i più richiesti.

HANDY identifica i prodotti con uno stile più essenziale, adatti a chi predilige praticità e funzionalità.

FRESH si tratta di un rafforzativo per indicare la freschezza del materiale, come nel caso del french terry.

ACTIVE è un rafforzativo per indicare prodotti consigliati per un utilizzo dinamico.

LINEE DI PRODOTTO

Diversi articoli, oltre ad essere raggruppabili per classe merceologica e per famiglia stilistica, fanno parte di una linea di prodotto specifica, cioè di una collezione composta da capi correlati, mirati ad utilizzi specifici. È il caso dell’Alta Visibilità o della Multipro, alle quali sono dedicate sezioni specifiche. Altre linee, invece, si trovano diffuse nel catalogo per logiche di presentazione e sono segnalate tramite targhette distintive.

FILLED DOWNJ identifica giacche imbottite con fibre libere, con trapuntature a liste o sezioni.

PADDED DOWNJ identifica giacche imbottite con uno strato compatto di fibre, con trapuntature a liste o sezioni.

UTILITYJ giubbotti da lavoro imbottiti, con un alto grado di isolamento termico e multitasche.

SPORTSWEAR-J identifica giacche dall’imbottitura leggera e confortevole, ideali per attività all’aperto.

WORKINSTYLE racchiude capi da lavoro sobri, utilizzabili anche per attività da tempo libero.

NEXT G indica prodotti ancor più tecnici, realizzati con materiali di nuova generazione, molto flessibili e performanti.

TECH-NIK LINE è la linea tecnica, pensata per i professionisti che ricercano estetica e funzionalità.

INDUSTRY è la linea pensata per le piccole e grandi attività industriali, o comunque per ambienti lavorativi nei quali è richiesto un abbigliamento pratico e resistente.

Additional tags.

STYLISTIC FAMILIES

In the catalogue, most of the items that dress the upper part of the body (TOPS) are associated with a “keyword” which indicates the stylistic family they belong to, to be understood as a set of products that share the main fabric or the same type of packaging or the same price range.

MUST identifies the flagship products, those with the greatest content, within each product class.

CORE identifies the central products, those that represent the heart of the collection, usually the most sought-after.

HANDY identifies products with a more essential style, suitable for those who prefer practicality and functionality.

FRESH this is an intensifier to indicate the freshness of the material, as in the case of French terry.

ACTIVE this is an intensifier to indicate products recommended for a dynamic use.

PRODUCT LINES

In addition to being grouped by product class and stylistic family, various articles are part of a specific product line, i.e. a collection made up of related items, aimed at specific uses. This is the case of the High Visibility or Multipro garments, to which specific sections are dedicated. Other lines instead are spread throughout the catalogue due to presentation logic and are indicated by distinctive tags.

FILLED DOWNJ identifies padded jackets with free-fibres, with quilting in strips or sections.

PADDED DOWNJ identifies padded jackets with a compact layer of fibres, with quilting in strips or sections.

UTILITYJ padded work jackets with a high degree of thermal insulation and multiple pockets.

SPORTSWEAR-J identifies jackets with lightweight and comfortable padding, ideal for outdoor activities.

WORKINSTYLE racchiude capi da lavoro sobri, utilizzabili anche per attività da tempo libero.

NEXT G indicates even more technical products, made with new generation materials, very flexible and high-performance.

TECH-NIK LINE is the technical line, designed for professionals who seek aesthetics and functionality.

INDUSTRY is the line designed for small and large industrial activities, or in any case for working environments in which practical and resistant clothing is required.

Certificazioni.

Il Regolamento (UE) 2016/425 stabilisce i requisiti per la progettazione e la fabbricazione dei Dispositivi di Protezione Individuale (DPI) messi a disposizione sul mercato e fissa norme sulla libera circolazione nell'Unione Europea. La marcatura CE attesta che il prodotto è stato valutato dal produttore e che rispetta i requisiti previsti dall'UE in materia di sicurezza e salute dell'utilizzatore, e tutela dell'ambiente.
Il Regno Unito ha istituito un proprio marchio di conformità (UKCA) ma ha anche esteso il riconoscimento della marcatura CE a tempo indeterminato. Le modalità di autodichiarazione, pertanto, della marcatura CE valgono anche per la marcatura UKCA. Laddove, invece, è richiesta la valutazione obbligatoria della conformità da parte di organismi notificati, questa deve essere espressamente rilasciata anche per la marcatura UKCA.
La classificazione dei DPI è effettuata per Categorie di Rischio crescenti, come da tabella seguente.

Certifications.

Regulation (EU) 2016/425 establishes the requirements for the design and manufacture of Personal Protective Equipment (PPE) made available on the market and establishes rules on the free movement in the European Union. The CE marking certifies that the product has been assessed by the manufacturer and that it complies with EU requirements regarding user health and safety, and environmental protection.
The United Kingdom has established its own conformity marking (UKCA) but has also extended recognition of the CE marking indefinitely. Therefore, the self-declaration methods of the CE marking also apply to the UKCA marking. Where, however, mandatory conformity assessment by notified bodies is required, this must also be expressly issued for the UKCA marking.
The PPE classification is carried out by increasing Risk Categories, as per the following table.

Dispositivi di protezione individuale Personal protective equipment			
	Livello di rischio Risk level	Modalità di certificazione Certification procedures	Marcatura Marking
CE I CAT	Solo per rischi minimi (lesioni meccaniche superficiali, contatto con prodotti per la pulizia poco aggressivi o contatto prolungato con acqua, contatto con superfici calde che non superino i 50°C, condizioni atmosferiche di natura non estrema, lesioni oculari dovute all'esposizione alla luce del sole).	Dichiarazione di conformità del produttore.	CE
	For minimal risks only (superficial mechanical injuries, contact with mild cleaning agents or prolonged contact with water, contact with hot surfaces not exceeding 50°C, non-extreme weather conditions, eye damage due to exposure to sunlight).	Manufacturer's declaration of conformity.	CE
CE II CAT	Per rischi di livello intermedio.	Certificazione rilasciata da un ente abilitato, indipendente e certificato, a seguito di test sul capo.	CE + pittogramma
	For intermediate level risks.	Certification issued by an authorised, independent and certified body, following tests on the garment.	CE + pictogram
CE III CAT	Per rischi irreversibili o mortali o di lesioni gravi e di carattere permanente.	Certificazione rilasciata da un ente abilitato, indipendente e certificato, a seguito di test sul capo e di verifica del controllo qualità del produttore.	CE + n° ente + pittogramma
	For irreversible or fatal risks or serious and permanent injuries.	Certification issued by an authorised, independent and certified body, following tests on the garment and the check of the manufacturer's quality control.	CE + body number + pictogram

Gli articoli classificati come DPI di Categoria I sono conformi alle normative europee vigenti e sono realizzati per proteggere i lavoratori da rischi minimi. I requisiti che li caratterizzano sono: innocuità, resistenza meccanica e variazione dimensionale.

CE
I CAT

Items classified as Category I PPE are compliant with current European standards and were made to protect workers from minimal risks. They meet the following requirements: complete safety for the user, mechanical resistance and dimensional adjustment.

INNOCUITÀ

Gli indumenti protettivi non devono influire negativamente sulla salute e sull'igiene dell'utilizzatore. Da anni, collaboriamo principalmente **con partner che utilizzano tessuti conformi a STANDARD 100 by OEKO-TEX®**, i quali privilegiano materiali liberi da sostanze nocive.

HARMLESSNESS

Protective clothing must not adversely affect the health and hygiene of the user. For years, we have mainly collaborated **with partners who use fabrics conforming to STANDARD 100 by OEKO -TEX®**, who favour materials free from harmful substances.

RESISTENZA MECCANICA

I test effettuati sui nostri articoli mostrano valori superiori a quanto previsto dalla norma in tema di resistenza allo scoppio, alla lacerazione e alla trazione, risultato di un'oculata selezione dei materiali, che risultano robusti e protettivi.

MECHANICAL RESISTANCE

The tests carried out on our items show values higher than those required by the standard in terms of resistance to bursting, tearing and traction, the result of a careful selection of materials, which are robust and protective.

VARIAZIONE DIMENSIONALE

La variazione dimensionale, al termine di 5 cicli di lavaggio, degli articoli classificati DPI non deve essere superiore al 3% per i tessuti ortogonali e al 5% per i tessuti a maglia. I capi Payper oltre ad ottenere ottimi livelli in termini di variazione dimensionale, consentono lavaggi a 40°C e garantiscono un'alta solidità del colore nel tempo.

SIZE VARIATION

The size variation, at the end of 5 washing cycles, of items classified as PPE must not exceed 3% for woven fabrics and 5% for knitted fabrics. In addition to obtaining excellent levels in terms of size variation, Payper garments allow washes at 40°C and guarantee high colour fastness over time.

Indumenti di protezione: requisiti generali

I requisiti generali che regolamentano la classificazione degli indumenti da lavoro sono contenuti nella norma EN ISO 13688. La norma specifica i requisiti prestazionali generali per ergonomia, innocuità, designazione delle taglie, invecchiamento, compatibilità e marcatura degli indumenti di protezione e le informazioni che devono essere fornite dal fabbricante unitamente all'indumento di protezione.
La norma è prevista per essere utilizzata unitamente ad altre norme contenenti i requisiti prestazionali specifici. Qui di seguito i pittogrammi presenti nel catalogo e le specifiche normative.

Protective clothing: general requirements

The general requirements governing the classification of workwear are contained in EN ISO 13688. This standard establishes the general performance requirements for the ergonomics, safety, sizes, wear, compatibility and marking of protective clothing and the information that must be provided by the manufacturer together with the protective clothing.
The standard is intended to be used together with other standards containing specific performance requirements. Below are the pictograms in the catalogue and the specific regulations.

ALTA VISIBILITÀ - EN ISO 20471
La norma specifica i requisiti per gli indumenti ad alta visibilità in grado di segnalare visivamente la presenza dell'utilizzatore. Il numero posizionato al posto della x indica la classe di appartenenza, secondo la tabella di cui sotto in base alle aree minime di materiale fluorescente. Se gli indumenti ad alta visibilità vengono personalizzati, occorre ricordare che i loghi o le etichette possono ridurre la superficie minima di tessuto fluorescente e modificare la classe di appartenenza.

Classe	Materiale di fondo fluorescente (m^2)	Materiale retroriflettente / Bande - (m^2)
3	≥0,80	≥0,20
2	≥0,50	≥0,13
1	≥0,14	≥0,10

HIGH VISIBILITY - EN ISO 20471
The standard specifies the requirements for high visibility clothing which is able to visually signal the user's presence. The number placed where the x is indicates the class to which it belongs, according to the table below based on the minimum areas of fluorescent material. If high visibility garments are customised, remember that logos or labels can reduce the minimum surface area of the fluorescent fabric and change the class to which they belong.

Class	Fluorescent backing material (m^2)	Retroreflecting material / Strips - (m^2)
3	≥0,80	≥0,20
2	≥0,50	≥0,13
1	≥0,14	≥0,10

RIS-3279-TOM
Identifica lo standard richiesto per l'abbigliamento protettivo di coloro i quali lavorano nell'industria ferroviaria del Regno Unito.

RIS-3279-TOM
Identifies the standard required for protective clothing for those working in the UK rail industry.

VISIBILITÀ MIGLIORATA - EN 17353
La norma specifica i requisiti prestazionali per equipaggiamento a visibilità migliorata in situazioni a medio rischio destinati ad utilizzatori attivi della strada o utilizzatori passivi della strada nelle situazioni:
• **Tipo A:** in qualsiasi condizione di luce diurna (solo materiale fluorescente);
• **Tipo B1, B2, B3:** sotto l'illuminazione dei fari dei veicoli al buio (materiale retroriflettente sospeso, posizionato in modo permanente o temporaneo sugli arti, posizionato sul torso o su torso e arti);
• **Tipo AB2 e AB3:** in qualsiasi condizione di luce diurna, notturna e sotto l'illuminazione dei fari dei veicoli al buio (sia materiale retroriflettente che fluorescente).
Per ogni tipo di dispositivo, esiste una area minima di materiale incorporato per aumentare la visibilità.

In base alla situazione specifica per cui l'indumento viene certificato, si distinguono pittogrammi diversi.

IMPROVED VISIBILITY - EN 17353
The standard specifies performance requirements for equipment with improved visibility in medium-risk situations intended for active or passive road users in the following situations:
• **Type A:** in any daylight condition (fluorescent material only);
• **Type B1, B2, B3:** illumination by vehicle headlights in the dark (suspended retroreflective material, permanently or temporarily placed on the limbs, placed on the torso, or on the torso and limbs);
• **Type AB2 and AB3:** in all daylight conditions, at night, with illumination by vehicle headlights in the dark (both retroreflective and fluorescent material).
For each type of device, there is a minimum area of incorporated material to increase visibility.

Depending on the specific situation for which the garment is certified, there are different pictograms.

	A	B3	AB	A	B3	AB	B1	B2
Altezza h dell'utilizzatore User height (h)	h ≤ 140 cm			h ≥ 140 cm				
Materiale fluorescente (m^2) Fluorescent material (m^2)	0,14	-	0,14	0,24	-	0,24	-	-
Materiale retroriflettente (m^2) Retroreflective material (m^2)	-	0,06	0,06	-	0,08	0,08	0,003	0,018
Materiale combinato (m^2) Combined material (m^2)	-	-	0,14	-	-	0,24	-	-

EN ISO 14116

CALORE E FIAMMA (INFIAMMIBILITÀ) - EN ISO 14116
La norma specifica i requisiti prestazionali di materiali, assemblaggi di materiale e degli indumenti che proteggono dal contatto occasionale e breve con piccole fiamme allo scopo di ridurre la possibilità che un indumento bruci, in circostanze in cui non sussistano pericoli termici significativi e senza la presenza di calore convettivo e radiante. La norma fornisce inoltre un sistema di classificazione: indice 1, 2, o 3. Tutti i componenti devono ottenere almeno un indice 1.

HEAT AND FIRE (FLAMMABILITY) - EN ISO 14116
The standard specifies performance requirements for materials, material assemblies, and garments that protect against occasional and brief contact with small flames in order to reduce the possibility of a garment burning, in circumstances where there are no significant thermal hazards and without the presence of convective and radiant heat. The standard also provides a classification system: index 1, 2, or 3. All components must achieve at least an index of 1.

EN ISO 11611
Class X A

SALDATURA E PROCEDIMENTI CONNESSI - EN ISO 11611
La norma specifica i requisiti fondamentali minimi di sicurezza e i metodi di prova per indumenti di protezione compresi cappucci, grembiuli, maniche e ghette che sono progettati per proteggere il corpo del portatore compresa la testa (cappucci) ed i piedi (ghette) e che sono destinati ad essere indossati durante la saldatura e i procedimenti connessi che presentano rischi comparabili.
Classe X: indica la protezione da processi di saldatura con lieve (classe 1) o forte (classe 2) formazione di schizzi e gocce di metallo fuso.
Ax: A1 e/o A2 in base al procedimento utilizzato per la determinazione della propagazione limitata di fiamma.

WELDING AND ALLIED PROCESSES - EN ISO 11611
The standard establishes the minimum fundamental safety requirements and test methods for protective clothing including hoods, aprons, sleeves and gaiters designed to protect the body of the wearer including the head (hoods) and feet (gaiters), and that are to be worn during welding and allied processes with comparable risks.
Class X: indicates protection from welding processes with a low (class 1) or high (class 2) quantity of splashes and drops of molten metal.
Ax: A1 and/or A2 depending on the procedure used to determine limited flame spread.

EN ISO 11612
Ax Bx Cx Dx Ex Fx

CALORE E FIAMMA (PERICOLI TERMICI) - EN ISO 11612
La norma specifica i requisiti prestazionali per capi di abbigliamento che sono progettati per proteggere il corpo dell'utilizzatore, ad eccezione delle mani, dal calore e/o dalla fiamma. Per la protezione della testa e dei piedi, gli unici articoli di abbigliamento di protezione che rientrano nello scopo e campo di applicazione della norma sono le ghette, i cappucci ed i copristivali. I capi sono progettati per proteggere l'utilizzatore dal contatto accidentale con piccole fiamme, da valori non elevati di calore convettivo, radiante e da contatto con spruzzi di metallo fuso (ferro e alluminio). Le diverse lettere indicano i livelli di prestazione:
Ax: propagazione di fiamma limitata; si specifica A1 e/o A2 in base al procedimento utilizzato per la determinazione della propagazione limitata di fiamma;
Bx: resistenza al calore convettivo;
Cx: resistenza al calore radiante;
Dx: resistenza a spruzzi di Alluminio fuso;
Ex: resistenza a spruzzi di Ferro fuso;
Fx: resistenza al calore da contatto.
La lettera x viene sostituita con un indice numerico per indicare la classe di prestazione.

HEAT AND FIRE (THERMAL DANGERS) - EN ISO 11612
The standard specifies performance requirements for garments designed to protect the wearer's body, except the hands, from heat and/or flame. For head and foot protection, the only items of protective clothing that are covered by the scope of this standard are gaiters, hoods and boot covers. The garments are designed to protect the wearer from accidental contact with small flames, from low levels of convective and radiant heat, and from contact with splashes of molten metal (iron and aluminium). The different letters indicate the performance levels:
Ax: limited flame propagation; A1 and/or A2 are specified based on the procedure used to determine limited flame propagation;
Bx: resistance to convective heat;
Cx: resistance to radiant heat;
Dx: resistance to splashes of molten Aluminium;
Ex: resistance to splashes of molten Iron;
Fx: resistance to contact heat.
The letter x is replaced with a numerical index to indicate the performance class.

IEC/EN 61842-2

ARCO ELETTRICO - IEC/EN 61842-2
La norma specifica i requisiti minimi per gli indumenti protettivi contro l'effetto termico dell'arco elettrico. La protezione fornita dal capo è limitata ai soli effetti termici da arco elettrico accidentale (resistenza alla fiammata, resistenza a calore radiante/convettivo, resistenza a schizzi derivanti da detriti di materiale in fusione).
La protezione offerta dall'indumento viene indicata come APC nel caso in cui l'indumento sia sottoposto a BOX test, o con ELIM nel caso in cui l'indumento sia sottoposto a OPEN ARC test.
I due risultati non sono tra loro correlabili in quanto sono ottenuti da metodi di test diversi.

ELECTRIC ARC - IEC/EN 61842-2
The standard specifies the minimum requirements for protective clothing against the thermal effect of an electric arc. The protection provided by the garment is limited to only the thermal hazards of an accidental electric arc (flame-resistance, resistance to radiant/convective heat, resistance to splashes from debris of molten material).
The protection provided by the garment is indicated as APC if the garment is subjected to the BOX test, or as ELIM if the garment is subjected to the OPEN ARC test.
The two results cannot be correlated as they are obtained using different test methods.

EN 1149-5

PROPRIETÀ ELETTROSTATICHE - EN 1149-5
La norma specifica i requisiti del materiale e di progettazione per gli indumenti di protezione che dissipano le cariche elettrostatiche, utilizzati come parte di un sistema di messa a terra totale per evitare scariche che possano innescare incendi, dove l'energia minima di accensione di un'atmosfera esplosiva non è minore di 0,016 mJ. La norma non si applica ai guanti o alle calzature di protezione che sono separati e non costituiscono parte integrante degli indumenti.

ELECTROSTATIC PROPERTIES - EN 1149-5
The standard specifies the material and design requirements for protective clothing which dissipates electrostatic charges, used as part of a total grounding system to prevent discharges which could ignite fires, where the minimum ignition energy of an explosive atmosphere is not less than 0.016 mJ. The standard does not apply to protective gloves or shoes which are separated and do not constitute an integral part of the clothing.

EN 13034

AGENTI CHIMICI LIQUIDI - EN 13034
La norma specifica i requisiti minimi per gli indumenti di protezione chimica che offrono una protezione limitata contro agenti chimici liquidi (equipaggiamento tipo 6 e tipo PB [6]). Offrono resistenza alle aggressioni chimiche di prodotti non immediatamente pericolosi per la salute e la sicurezza consentono un'adeguata protezione da eventuali contatti accidentali (piccoli spruzzi, aerosol, ecc.) permettendo all'operatore di provvedere, in tempo utile, alla pulizia o alla sostituzione del capo.
Le proprietà del tessuto vengono valutate attraverso l'utilizzo di reagenti chimici: Idrossido di sodio, Acido solforico, O-xilene, 1-Butanolo. Vengono testate repellenza del tessuto agli agenti chimici e penetrazione dell'agente chimico nel tessuto. Si determinano 3 classi di prestazione in base al livello di repellenza e penetrazione.

LIQUID CHEMICALS - EN 13034
The standard specifies the minimum requirements for chemical protective garments offering limited protection against liquid chemicals (type 6 and type PB equipment [6]). They offer protection against chemically aggressive agents of products which are not immediately harmful to health and safety and provide adequate protection against any accidental contact (small sprays, aerosol, etc.), giving the operator sufficient time to clean up or change the clothing item.
The fabric properties are evaluated through the use of chemical reagents: Sodium hydroxide, Sulphuric acid, O-xylene, 1-Butanol. The fabric's repellence to chemical agents and the penetration of the chemical agent into the fabric are tested. Three performance classes are determined based on the level of repellence and penetration.

Y
Y
Y
WP
EN 14058

PROTEZIONE AMBIENTI FREDDI - EN 14058
La norma specifica requisiti e metodi di prova per la prestazione di singoli capi di abbigliamento per la protezione contro il raffreddamento del corpo in ambienti freddi. Essa non comprende i requisiti specifici per copricapo o calzature o guanti per prevenire raffreddamento locali. Per ambienti freddi si intendono i luoghi caratterizzati da una possibile combinazione di umidità e vento a temperatura di -5°C o maggiori.
Y: classe di resistenza termica (R_{ct});
Y: classe di Permeabilità all'aria (AP);
Y: valore di isolamento termico (I_{clear});
WP: resistenza alla penetrazione dell'acqua. Il risultato deve essere WP ≥8000 Pa per avere esito positivo.
Quando il capo non viene sottoposto ad un test facoltativo, l'indice è sostituito da una X.

PROTECTION AGAINST COLD ENVIRONMENTS - EN 14058
The standard specifies the requirements and test methods for the performance of individual items of clothing to protect against the cooling down of the body in cold environments. It does not include specific requirements for headgear or footwear or gloves to prevent localised cooling down. Cold environments are locations characterised by a possible combination of humidity and wind at a temperature of -5°C or lower.
Y: thermal resistance class (R_{ct});
Y: air permeability class (AP);
Y: thermal insulation value (I_{clear});
WP: resistance to water penetration. The result must be WP ≥8000 Pa to be successful.
When the garment is not subjected to an optional test, the index is replaced by an X.

EN 343
X
Y
Z

PIOGGIA - EN 343
La norma specifica i requisiti e i metodi di prova applicabili ai materiali e alle cuciture di indumenti di protezione contro gli effetti delle precipitazioni (per esempio pioggia, neve), della nebbia e dall'umidità del suolo.
X: livello di resistenza alla penetrazione dell'acqua, quindi l'impermeabilità (WP);
Y: livello di resistenza evaporativa;
Z: test per la prova di impatto con goccioline ad alta energia.
Ogni lettera può essere sostituita da un indice numerico che rappresenta la classe di appartenenza, altrimenti se il capo non è stato testato viene marcato con una X.

RAIN - EN 343
The standard establishes the requirements and test methods for materials and seams of clothing for protection against the effects of precipitation (e.g. rain, snow), fog and ground moisture.
X: level of resistance to water penetration, therefore waterproofing (WP);
Y: level of evaporative resistance;
Z: impact test with high energy droplets.
Each letter may be replaced by a numbered index which represents the class to which it belongs, otherwise it is marked with an X indicating that the garment has not been tested.

Personalizzazioni.

Aggiungere una stampa o un ricamo al capo d'abbigliamento o all'intera divisa è il completamento ideale per alimentare il desiderio d'identità. **Questo consente di esaltare il senso di appartenenza ad un'impresa o ad un team, di sentirsi parte e di essere riconosciuti a colpo d'occhio.**
Per rispondere a questa crescente esigenza, **l'azienda si è dotata di un avanzato reparto di personalizzazione dei capi in house, in modo da garantire un servizio di alta qualità in tempi rapidi.** Qui di seguito le principali tecniche sviluppate.

Customisations.

Adding a print or embroidery to the garment or the entire uniform is the ideal complement to fuel the desire for identity. **This allows you to enhance the sense of belonging to a company or a team, to feel part of it and to be recognised at a glance.** To respond to this growing need, **the company has equipped itself with an advanced in-house garment customisation department, to ensure a fast high quality service.** Below are the main techniques developed.

Stampa serigrafica.
Silk-screen printing.

Stampa serigrafica fluo.
Fluorescent silk-screen printing.

Informazioni utili.

- Gli articoli Payper sono realizzati con tessuti e accessori accuratamente selezionati per garantire qualità, durata e comfort di utilizzo, ma anche stabilità produttiva. Occorre comunque prevedere un margine di tolleranza produttivo del +/- 3% delle dimensioni, nel rispetto delle proporzioni della taglia.
- Anche per i pesi di riferimento g/m² dei tessuti principali, indicati a catalogo e sito web, va considerato una variazione di tolleranza (+/-) di qualche punto percentuale tra i vari lotti di produzione.
- Le cerniere montate sui capi sono testate dai produttori con prove di trazione, a garanzia della resistenza al normale utilizzo. L'uso frequente di un capo, in particolare nel mondo del lavoro, potrebbe portare ad un'eccessiva sollecitazione della cerniera. Per preservarne la durata è necessario avere la giusta accortezza nell'utilizzo, in modo particolare in presenza del doppio cursore. Le forzature prolungate possono, infatti, alterare il meccanismo di scorrimento.
- Al di là della normale usura, per mantenere integro e durevole un capo d'abbigliamento è necessario quindi prestare attenzione all'utilizzo e seguire scrupolosamente le indicazioni di manutenzione (lavaggio, asciugatura, stiratura) riportate sull'apposita etichetta.
- I capi in cotone possono subire una variazione dimensionale naturale fino ad un 5% complessivo dopo i primi cicli di lavaggio, anche se questi vengono correttamente eseguiti come da istruzioni riportate sull'etichetta di manutenzione. Ogni variazione superiore è causata da un lavaggio inadeguato del prodotto.
- Anche una lieve perdita di colore è da mettere in conto per i prodotti in cotone dopo i primi cicli di lavaggio.
- Oltre al rispetto delle indicazioni riguardanti la corretta manutenzione, per evitare lo scolorimento, si consiglia la divisione dei colori al lavaggio, l'utilizzo di detersivi idonei e la stesa dei panni al rovescio e non alla diretta esposizione alla luce solare.
- È da tener, infatti, presente che i prodotti in cotone, se esposti in maniera diretta e continuativa alla luce solare, tendono a scolorire. Questo fenomeno è accentuato quando l'articolo è indossato durante attività prolungate e faticose all'aperto, soprattutto da utilizzatori ad intensa sudorazione.
- Le tonalità delle varianti colore presenti a catalogo e sul sito web sono da considerarsi indicative, in quanto le immagini potrebbero non riprodurre fedelmente le reali sfumature dei materiali.
- Lotti di produzione diversi dello stesso articolo/colore potrebbero riportare lievi differenze di tonalità, riconducibili a cause naturali e/o specifiche tecniche di tintura. Tali variazioni non si possono considerare deformità.
- Il continuo studio, sviluppo e perfezionamento dei prodotti potrebbe determinare, di stagione in stagione, variazioni di etichettatura, di confezionamento, di imballaggio e delle specifiche tecniche. È premura informarsi su eventuali aggiornamenti apportati agli articoli, prima di procedere con la presentazione per una fornitura o un riordino.

Useful information.

- The materials used to create the Payper garments have been carefully selected to guarantee their quality, durability and comfort of use.
- Based on normal wear and tear, to maintain the integrity and to preserve the durability of the garment it is necessary to manage it properly and carefully, and to scrupulously follow the washing instructions shown on the inside label.
- It should be remembered that cotton products tend to discolour when exposed to sun and light, and this phenomenon is accentuated when the product is used by persons who work hard in the sun and by those who are subject to intense sweating.
- It is normal for cotton garments to shrink slightly in size and to lose a little colour in the first washes; therefore, it is advisable to be particularly careful in complying with the wash temperatures, dividing colours, using suitable detergents and paying attention when drying the product.
- Any variation exceeding those specified is caused by inadequate use and/or washing of the product.
- The zippers mounted on the garments are tested by the manufacturers with tensile tests to guarantee resistance to normal use.
- Frequent use of a garment, particularly in the workplace, means the zipper undergoes a considerable stress; to guarantee its durability it is simply necessary to be properly careful during use, particularly when there is a double-pull which works with a more delicate mechanism than the single one. Forcing leads to altering the sliding mechanism.
- The grammage shown in the catalogue has a margin of tolerance of a few percentage points.
- The colours reproduced in the catalogue and on the WEB should be considered indicative, they cannot faithfully reproduce the real colour tone of the material.
- The continuous study, development and improvement of the products can determine variations of the technical specifications from one season to the next, please enquire about any updates made to the products before they are presented.
- Due to natural causes and dyeing techniques, the colour tone in the different productions of a product is never the same; in fact, imperceptible variations often occur, which in any case should not be considered defects.

Trova articolo.

Questo catalogo relativo all'abbigliamento Payper vanta un'ampia gamma di articoli, adatti sia a contesti casual che professionali. Per individuare rapidamente l'articolo che si sta cercando, riportiamo l'elenco alfabetico completo.

Find item.
